Subject: H2O Rx and CSC - April E-News - Sample Probes

## Sample Probes from H2O Rx and Saf-T-Flo

Did you know that the popular Saf-T-Flo chemical injection quills and lances can be configured as sample probes?

These units can be inserted to the mid section of the pipe, used to take a sample, and then removed.

This process allows a more representative sample to be taken than simply drawing from a valve near the pipe wall.
